## WHO WE ARE

My Green Trip is a community of travelers and tourism organizations who pick up trash left behind in nature. We believe that every small action can have a huge impact if we all do it together.

Between our Team, our Ambassadors and our Partner Organizations, we have organized about 300 clean-ups in more than 30 countries in 2018. In Switzerland, we have supervised 10 clean-up events in 4 different cities.

As professionals in community engagement, our team building events are designed to go beyond a group activity to include impact, creative and learning dimensions which are a real added value for the participants - and make it an unforgettable experience.

## OUR OFFER TO COMPANIES

We offer a **full-day customized team building experience** that includes a clean-up in nature combined with awareness raising workshops.

Our package includes:

- **Clean-up activity in nature** with experience-sharing and debriefing.
- **Creative workshops and interactive discussions** to better understand the role of consumption in creating/reducing waste.
- **Zero-waste lunch** with local and seasonal food.
- **Communication material** including zero waste goodies, professional photos and shareable content to make your day unforgettable.

All these activities can be tailored to the specific needs of your organization. Ask for our catalogue to have a list of the different options.

“

This day was just great. Honestly we did not expect to collect so much waste. We were all very happy with our kit.

I am very happy to have done this activity and to have brought a touch of My GreenTrip in my team. We have raised awareness around us and to our colleagues and I hope that it will help to spread the word.

”

## CONDITIONS

The price is in the form of a package that is paid for the whole group. The budget can vary depending on the number of participants and the type of activity. **Contact us to receive our catalogue.**
